## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Election/Unity of Invention***

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

2. In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-12 drawn to a surgical stapler having an indicator positioned on the handle assembly for providing visual indication to a surgeon that the head portion of the stapler is in the approximated position.

Group II, claim(s) 13-20 drawn to an anvil sub-assembly having a plurality of staple forming pockets, a cutting ring, and a retainer clip.

3. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: In the instant case, Group II lacks an indicator. Specifically, the special technical feature, as defined in Rule 13.2, is the technical feature of the invention that defines a contribution over the prior art which is determined based on the contents of the application as a whole. In this case, the special technical feature is a visual indicator that provides visual indication to a surgeon that the head portion of the stapler is in the approximated position.

Please note 37 CFR 1.475 (e) which clearly states that the determination unity shall be made without regard to whether the inventions are claimed in separate claims or as alternatives within a single claim.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
